A column of editorials have been crowded out this week by other matters. The ferry-the rockcrusher-street improvement the fireboys' appropriation-all of these questions we wished to review, but there is another week coming.

When C. W Hodson stated that he would not vote for any man who signed Statement No. 1, he showed that he was honest, and that he is not going to do that which would require him to vote for a Democrat for United States Senator. His objections to Statement No. 1 are legitimate and merits the consideration of every Republican in the State of Oregon. Now is the time to put a stop to his business. John Shattuck-Oregonian.

We thought most intelligent men had outgrown the idea that a man simply because he was a candidate | of his party must be voted for by every member of that party. This is one of the most pernicious principles ever advocated by any political party and is responsible for more rottenness in politics than any other. Statement No. r is a wise measure and the man who would break it is either a political fraud or as many times a blinkety-blank fool as Heintz makes pickles.
